

NORDIC BEAST

CAT WHEEL INSTALLATION MANUAL

HINT:

Do not tighten all the mounting screws completely at once. Instead, tighten them again individually after installing and forming each component.

Read the manual once through before starting the assembly.

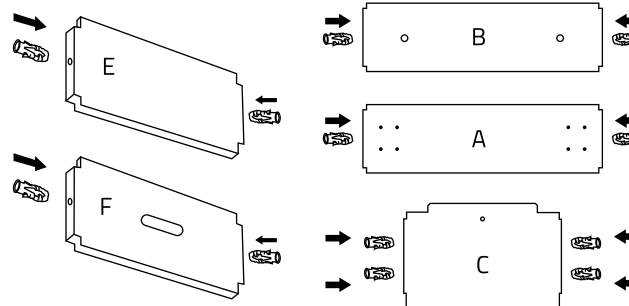

LAYOUT MATERIALS ■ Product Components

For **video assembly** visit - www.nordicbeast.eu/hello

 Ax2 Bx2	 Cx2 * One of them has a screw hole	 Dx6
 Ex23 * three pieces of E have double holes on the side	 Fx1	 Gx2
 Hx6	 Ix1	 Jx4 Kx16
 Lx24	 Mx70 Nx70	 Ox1
 Px4 long screw	 Qx4	 Rx4

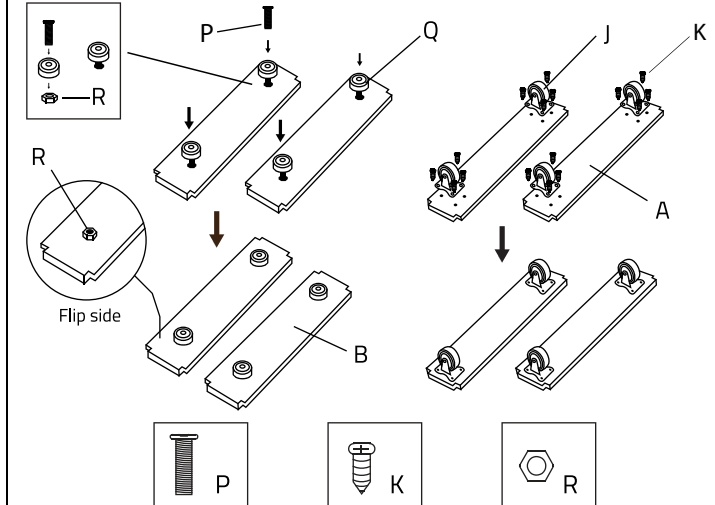

STEP 01 Install anchor plugs

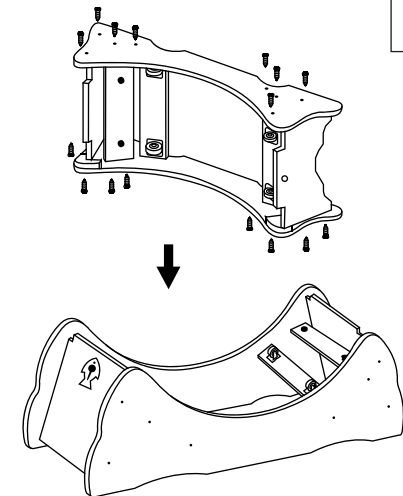

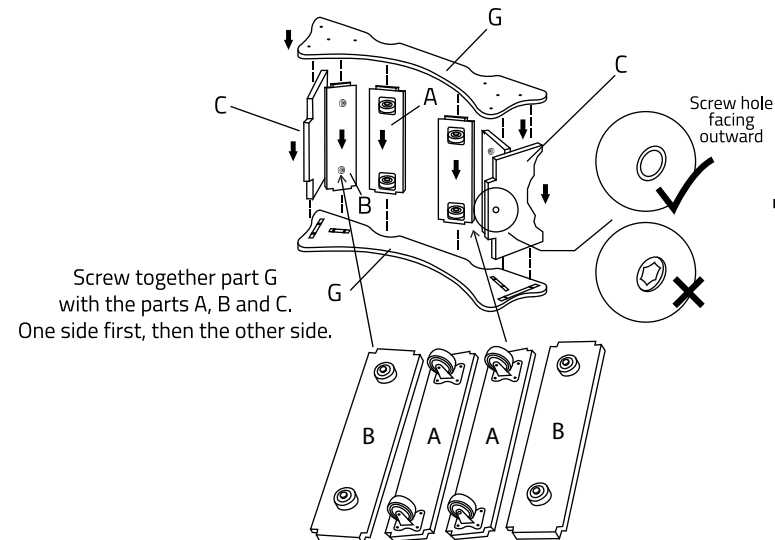

Insert the N yellow anchor plugs into the holes at both ends of the parts A, B, C, E, F

STEP 02 Install the wheels Q to the plate B and the wheels J to the plate A

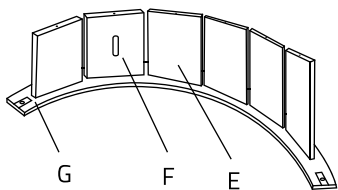

STEP 03 Putting the base of the wheel together

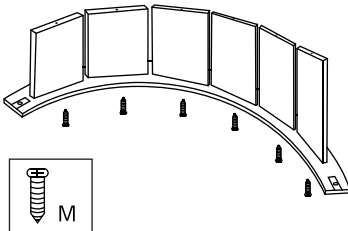

Base Installation Complete

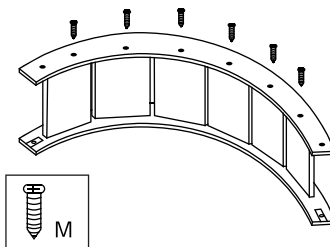

STEP 04 Place part F at a random place

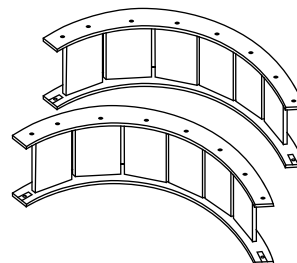

STEP 05 Attach plates E to the arch D using screw M

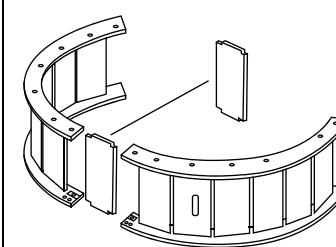

STEP 06 Fix another arch on the opposite side of plates E

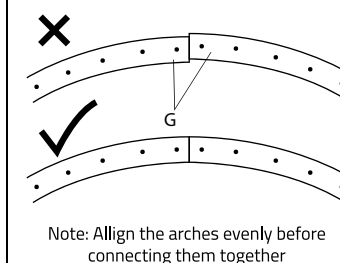

STEP 07 Repeat steps 4-6 until all of the 3 arches are assembled

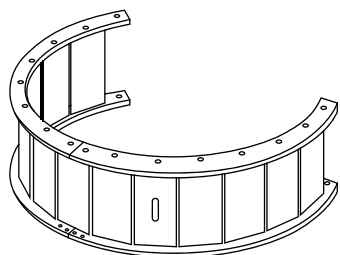

STEP 08 Use the part E (with double screw holes) to connect the arches together

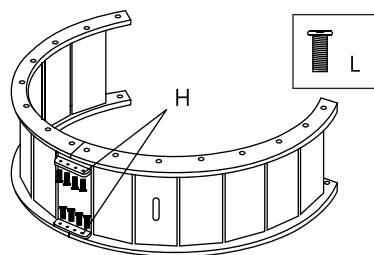

STEP 09 Align the arches before tightening the screws

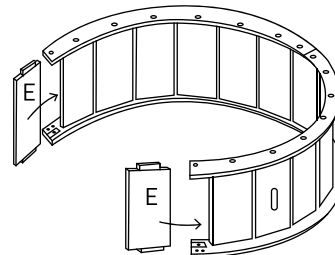

STEP 10 Connecting the arches

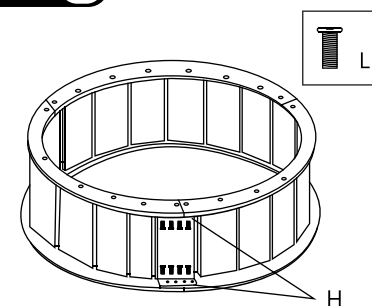

STEP 11 Attach fixators H to the inside curve of the arches with screw L

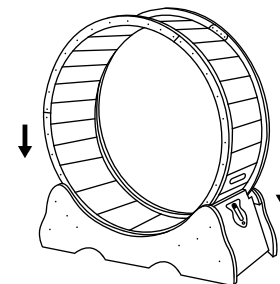

STEP 12 Assemble the wheel together

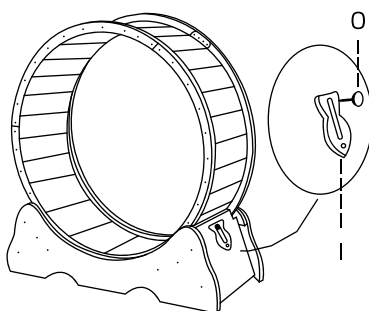

STEP 13 Install the final fixator H

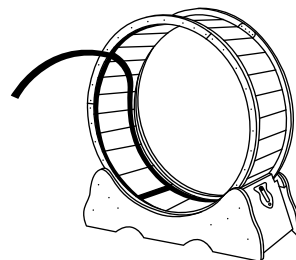

STEP 14 Place the wheel on the base

STEP 15 Install the break to the wheel

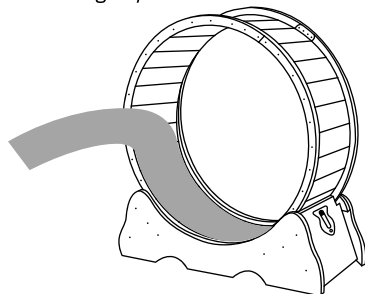

STEP 16 Glue the Velcro to the inside of the treadmill's running area

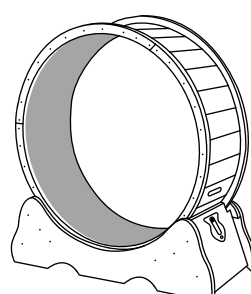

Note: Wipe the running area clean before gluing Velcro

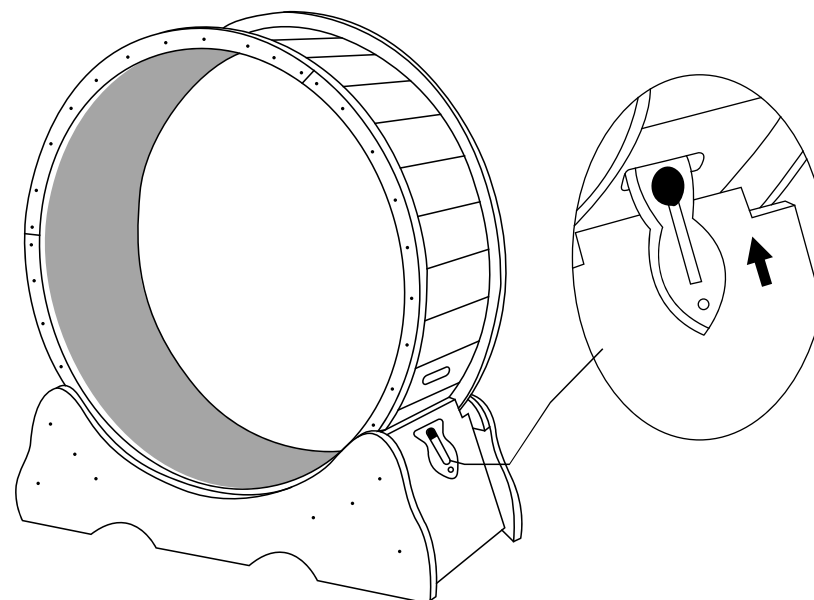

STEP 17 Attach the carpet evenly and tightly to the inside of the runway

STEP 18 Congratulations! You've completed the assembly!

How to use the break

Although we always inspect our products thoroughly, make sure to let us know if there is anything missing!
